

Guilsborough School Sixth Form Opportunities Evening

Thursday 3rd December 2009 7.00-8.30pm

An Invitation to view our Sixth Form Offer for the coming year

Guilsborough Sixth Form warmly welcomes parents and students who are already part of the school community and those of you who would like to find out more about our values, courses and facilities for the coming year.

There will be a presentation by staff and students at 7.00 pm in the school hall, covering the full range of courses available to students. This will be followed by an opportunity to discuss individual courses in detail with subject staff.

The highest academic standards

- In 2009, 71% of A level results were A-C grades.
- Guilsborough Sixth Form is rated as "Excellent" in standards by the ALPS independent analysis of Sixth Form performance, over the last three years.

Excellent facilities

- Purpose-built Sixth Form Centre, completed in 2004, including two large dedicated study rooms.

A great place to be (the views of students who joined us from other schools)

- "I feel that the standard of teaching is at a much higher level than I expected."
- "I have found it very easy to make new friends and there is a really nice atmosphere in the sixth form".

Courses and entry requirements

- We offer a wide range of A level courses, including vocational A levels and four BTEC level 2 courses.
- We have an inclusive entry policy and welcome students onto full level 3 or BTEC level 2 courses, or a mix of level 3 with BTEC level 2.

Please contact us if you would like a personal interview or to spend the day with us.
