## The Path to a Sustainable Future through Geography

What are the opportunities and challenges for urban environments?

Rio de

Janeiro

Fieldwork: Birmingham What are the physical landscapes of the UK?

What are the landforms created in glacial regions & how are they created?

What happens where the land meets the sea?

How can our cities be sustainable?

What is glaciation?

How can we

evaluate the

transnational

corporations?

success of

What hazards &

aet at different

landforms can we

plate boundaries?

**Lake District** 

Jamaica

How can we protect our coastline?

How can the development gap be reduced?

What is a hazard?

What are the physical processes taking place under our earths crust?

How do the effects and responses to tectonic hazards vary between countries of different levels of wealth?

How can

quality of life

be improved

in Nigeria?

What are the different types of aid & how do they impact a country?

> HIC/NEE :Chile

What are the

opportunities for

are the conflicts?

economic activity in

glacial areas & what

What are the

of tropical

storms?

characteristics

**CASE STUDY:** 

**NIGERIA** 

**Evidence** 

**Extreme** 

weather:

UK

What are

the effects

of climate

change

How & why has the UK changed its transport & infrastructure? Why is there a North/South divide?

What are the social & economic changes of UK rural landscapes?

How has the UK moved towards a postindustrial economy?

LIC: Nepal

How can tectonic hazards be managed?

Haivan

What are the effects of tropical storms on people & environment?

What is the Human & physical evidence for climate change?

How can we mitigate and adapt to climate change?

What are the causes of economic change in the UK?

What do I need to know for my 3 AQA geography papers and how best do I revisit and learn?

world?

What is the

future of the

changing

UK?

What is Urbanisation and why is it happening? Year 12 What are the social & economic issues of

**CASE STUDY:** RIO

What is the urban heat island effect?

How are rivers managed & restored in urban areas?

CASE STUDY: LONDON

What are the issues with

urban waste & how is it

A case study of a river catchment to analyse themes.

What are the contemporary opportunities & challenges of developing sustainable cities?

> How is glaciation a system of processes?

> > How do we collect

data to analyse & evaluate?

quantitative & qualitative

Daventry District

urbanisation?

and connections within and

exogenous to a place?

JUAL

How does water move in

an urban area?

managed?

A case study of a rainforest to analyse water & carbon cycles

What is the impact of humans in cold

environments?

What are the physical characteristics of cold environments?

What is place, and what are the characteristics contributing to place?

What processes take place in a glacial

region?

**CASE STUDY:** Snowdonia

How are water & carbon an interlinked system?

How is place

represented through

What and where are our global water stores?

**CASE STUDY:** 

Corby

What are the relationships

What is carbon & where

is it found??

What features are found t in a glacial region?

How are lives affected by 'changing place'?

water, carbon &

climate?

**CASE STUDY:** Norway

different media?

What are the factors of globalisation & how have we become interdependent?

> What are the global features & trends of global trade?

What is global aovernance?

> What is the role of Antarctica as a Global Common?

**CASE STUDY:** 

Stratford, London

What are the over arching opportunities & challenges of globalisation?

What do I need to know for my 2 AQA geography papers and how best do I revisit and learn?

**Non-Examined Assessment** 

Year 13

What is the

What are the effects & responses to seismic hazards?

**CASE STUDY: Philippines** 

What are the causes, effects & responses to storm hazards?

What are the causes, effects & mitigation responses to wildfires?

theory behind crustal evolution & land formation?

**CASE STUDY: Iceland** 

CASE STUDY: Haiti/ Japan
