

Well done to
everyone for
supporting our
Eco work last
year.

Especially
thanks to the
Eco Committee!

Why are young people taking action?

Climate change, pollution, and biodiversity loss is happening now, and the impacts of climate change will only increase in the future. But young people don't have to be bystanders. You can make a difference!

and
Revision Guide
Swap/Donation Shop

Let's Help Each Other
Donations Needed

From next academic year, our Eco Committee is excited to launch a Used Uniform and Revision Guide Swap/Donation Shop to support families and promote sustainability at Guilsborough.

We're asking for donations of:

- Good-quality school uniform (including blazers, PE kit, etc.)
- Up-to-date GCSE and A-Level revision guides

If you have any items your child no longer needs, please drop them off at school reception from 21st July onwards.

fsheldrick@guilsborough.northants.sch.uk

Across the year, we'll deliver activities that connect to some of the 10 Eco-Schools topics

Biodiversity - Activities that support plant, insect, and animal life, across our site, local area, or globally.

Energy - Activities that increase the use of renewable energy and reduce day-to-day usage.

Global Citizenship - Activities that make our planet more peaceful, sustainable, and fair.

Healthy Living - Activities that boost the health and wellbeing of both people and planet.

We have voted to focus on these 3 topics this year:

- 1. Biodiversity**
- 2. Global citizenship**
- 3. Water**

Litter - Activities that empower young people to take responsibility for their local community and reduce litter.

Marine - Activities that protect and conserve water-based eco-systems, such as rivers, canals, and beaches.

School Grounds - Activities that improve our setting for people, plants, animals, and insects.

Transport - Activities that promote sustainable travel, cutting carbon emissions.

Waste - Activities that support the waste hierarchy and send as little waste as possible to landfill.

Water - Activities that preserve and appreciate our most important natural resource.

We would like all students and families to cut their carbon production in November by following these steps:

✓
Make 3 evening meals plant-based across the month.

✓
Make 4 journeys active across the month.

✓
Meal plan to reduce food waste for one week.

✓
Have a 'device-free' day.

✓
Drop your heating by 1°C for a week.

✓
Substitute 4 baths for 4 showers and limit them to 4 minutes.

✓
Share 3 pieces of carbon-cutting advice.

✓
Lower your washing machine temperature to 30°C for 3 washes across the month.

✓
Opt for a refillable water bottle 3x a week across the month.

Green Careers Week 2026

2nd - 7th November

See this website for
quizzes, virtual work
experiences and
more

<https://greencareersweek.com/>

Interested in joining us?

All are welcome to come to **Eco Club**

- Week 1 KS3 Thursday
A15 or the allotment
Mr Sheldrick
- Week 2 KS4/5 Friday
Right side canteen
Dr Sheldrick

Also you can join the **Eco Committee** if you want to help plan our actions this year.

Next meeting is after half term
