To prepare effectively for Sociology. it is suggested you work through the below tasks and bring these with you for the first week back in September 2023 .

## Task 3— Sociological Theory

A theory, for our purpose, is something that explains the relationship between two or more things. A perspective can be defined as a way of looking at and seeing something. To have a perspective, therefore, means to look at something (whatever that thing might be) in a particular way. When we talk about the sociological perspective, therefore, we are talking about the particular way those sociologists, as opposed to non-sociologists try to understand human social behaviour.

Use the internet to find out about the main sociological theories. For each one explain the main idea and concepts and the key sociologists:

Functionalism

Marxism

Feminism

Action Theories

Postmodernism

Which sociological perspective do you agree with? Why?

The YouTube channel below is good for summaries of the main theories:

Does this article suggest we live in a meritocracy?
